FACT SHEET

Trade infrastructure for the faith-based economy

OneAgrix takes Halal, Kosher and Vegan products end to end, from product compliance and market mapping through traceability to trade, in one continuous record.

Four pillars

Product Compliance

Certificates, ingredients and labels checked against each destination's rules.

Market Mapping

Which markets a product's certifications already open, monitored as rules change.

Traceability

Batch serialisation, chain of custody and brand protection across borders.

Trade

Checked buyers and suppliers, landed cost per route, conventional and Islamic finance.

At a glance

- UN International Trade Centre: contributed to trade development frameworks
- COMCEC: recognised by the economic cooperation body of the OIC
- Swiss Food and Nutrition Valley: member

What we do not do

OneAgrix does not issue certificates, rule on religious questions or replace any regulatory requirement. Final clearance always sits with the destination authority.
